Current Digital Projects include Social Media Learning Center Studies of Elections, Redistricting, Minorities, and Discussions of the American South, Race, and the Civil War. Also text and data analytics (mining) – developing techniques using the HathiTrust, Internet Archive II Digital Book Collection, and Library of Congress Chronicling America U.S. newspaper archive to study "DNA" of writings of Abraham Lincoln, changing views of American South over time, interpretations of Civil War and development of "Lost Cause Mythology."

In addition, I continue to use Edgefield County, South Carolina to investigate, "large questions in small places." I have accumulated a quantitative database that includes every person and farm recorded in the U.S. manuscript census returns linked from 1850 to 1880 for old Edgefield District, South Carolina (a region now comprising five different counties). With this unique database I (and my students) can study, test, and suggest themes in American History with details and specificity related to the lives of ordinary folks.
